INVESTMENT OPPORTUNITY

Dear Friends of St. Francis Care Centre,

The St. Francis Care Centre is currently providing residential care to 34 children aged between 3 months and 6 years – all of whom have been affected by **HIV and AIDS**. Fourteen of these children are infected with the HIV virus and are receiving antiretroviral treatment with excellent results. Most of the children have lost their parent/s due to HIV/AIDS and are orphaned. It is true that children are the future, and the Centre works tirelessly to place these children back into the family environment as soon as possible. Children need love, guidance and nurturing of a family in order to development into well-adjusted and productive adults.

The Centre invites you to invest in the future of our country by supporting us financially in order to render the services that these children require. This financial investment in the life of a child will ensure a brighter future for the child - give hope where there was only hardship, poverty and despair. (If you would like to "Adopt a virtual Child" and contribute on a regular basis this can be arranged, and you would be provided with regular progress reports).

All donations, both big and small, will be appreciated. **Donations to our Centre are tax deductible in terms of Section 18A of the Income Tax Act and a receipt will be issued for tax purposes.**
